ROCKTON SCH DIST 140
ROCKTON, ILLINOIS

ILLINOIS
SCHOOL
REPORT
CARD

GRADES : 6 7 8

State and federal laws require public school districts to release report cards to the public each year.

STUDENTS

RACIAL/ETHNIC BACKGROUND AND OTHER INFORMATION

	White	Black	Hispanic	Asian/ Pacific Islander	Native American	Multi racial /Ethnic	Low- Income Rate	Limited- English- Proficient Rate	High Sch. Dropout Rate	Chronic Truancy Rate	Mobility Rate	Attendance Rate	Total Enrollment
School	93.9	3.3	1.0	1.0	0.6	0.0	8.8	0.0		0.4	9.3	95.6	478
District	93.9	3.1	1.4	1.3	0.3	0.1	8.8	0.0		0.1	8.9	96.0	1,400
State	56.7	20.3	18.3	3.7	0.2	0.7	40.0	6.6		2.2	16.1	93.9	2,062,912

Low-income students come from families receiving public aid; live in institutions for neglected or delinquent children; are supported in foster homes with public funds; or are eligible to receive free or reduced-price lunches.

Limited-English-proficient students are those students eligible for transitional bilingual programs.

Mobility rate is based on the number of times students enroll in or leave a school during the school year.

Chronic truants are students who are absent from school without valid cause for 18 or more of the last 180 school days.

Some teacher/administrator data are not collected at the school level.

SCHOOL DISTRICT FINANCES

TEACHER/ADMINISTRATOR SALARIES (Full-Time Equivalents)

Salaries and counts of staff are summed across a district based on the percentage of time that each individual is employed as a teacher or an administrator and may or may not reflect the actual paid salaries for the district.

EXPENDITURE BY FUNCTION 2003-04 (Percentages)

REVENUE BY SOURCE 2003-04				EXPENDITURE BY FUND 2003-04			
	District	District %	State %		District	District %	State %

OTHER FINANCIAL INDICATORS				
	2002 Equalized Assessed Valuation per Pupil	2002 Total School Tax Rate per \$100	2003-04 Instructional Expenditure per Pupil	2003-04 Operating Expenditure per Pupil
District	\$117,544	3.43	\$4,370	\$6,914
State	**	**	\$5,216	\$8,786

** Due to the way Illinois school districts are configured, state averages for equalized assessed valuation per pupil and total school tax rate per \$100 are not provided.
Equalized assessed valuation includes all computed property values upon which a district's local tax rate is calculated.
Total school tax rate is a district's total tax rate as it appears on local property tax bills.
Instructional expenditure per pupil includes the direct costs of teaching pupils or the interaction between teachers and pupils.
Operating expenditure per pupil includes the gross operating cost of a school district excluding summer school, adult education, bond principal retired, and capital expenditures.

ACADEMIC PERFORMANCE

OVERALL STUDENT PERFORMANCE

These charts present the overall percentages of state test scores categorized as meeting or exceeding the Illinois Learning Standards for your school, district, and the state. These performance measures include only those test scores for the grades and subjects (reading, mathematics and science) included in your school. The results for 2003-04 were recalculated to reflect only reading, mathematics and science.

OVERALL ILLINOIS STANDARDS ACHIEVEMENT TEST (ISAT) PERFORMANCE

ISAT PERFORMANCE

These charts provide information on attainment of the Illinois Learning Standards. They show the percents of student scores meeting or exceeding Standards for the grades and subjects tested on ISAT.

ISAT Grade 7

ISAT Grade 8

PERFORMANCE ON STATE ASSESSMENTS

Federal law requires that student achievement results for reading, mathematics and science for schools providing Title I services be reported to the general public.

The Illinois Standards Achievement Test (ISAT) is administered to students in grades 3, 4, 5, 7, and 8. The Prairie State Achievement Examination (PSAE) is administered to students in grade 11. The Illinois Measure of Annual Growth in English (IMAGE) is administered to students in state-approved transitional bilingual programs. The Illinois Alternate Assessment (IAA) is administered to students with disabilities whose Individualized Education Programs (IEPs) indicate that participation in the ISAT or PSAE would not be appropriate.

Students with disabilities have an IEP (No Child Left Behind Act). An IEP is a written plan for a child with a disability who is eligible to receive special education services under the Individuals with Disabilities Education Act.

Schools with grade 2 as the highest grade in the school use a state-adopted test in reading and mathematics to meet this requirement.

In order to protect students' identities, test data for groups of fewer than ten students are not reported.

ILLINOIS STANDARDS ACHIEVEMENT TEST (ISAT)

The following tables show the percentages of student scores in each of four performance levels. These levels were established with the help of Illinois educators who teach the grade levels and learning areas tested. Due to rounding, the sum of the percentages in the four performance levels may not always equal 100.

Level 1 -- Academic Warning - Student work demonstrates limited knowledge and skills in the subject. Because of major gaps in learning, students apply knowledge and skills ineffectively.

Level 2 -- Below Standards - Student work demonstrates basic knowledge and skills in the subject. However, because of gaps in learning, students apply knowledge and skills in limited ways.

Level 3 -- Meets Standards - Student work demonstrates proficient knowledge and skills in the subject. Students effectively apply knowledge and skills to solve problems.

Level 4 -- Exceeds Standards - Student work demonstrates advanced knowledge and skills in the subject. Students creatively apply knowledge and skills to solve problems and evaluate the results.

Economically Disadvantaged														

Four Conditions Are Required For Making Adequate Yearly Progress (AYP)

1. At least 95.0% tested for Reading and Mathematics for the All Group and Subgroups. If the current year's participation rates are less than 95%, the participation rate for AYP will be considered sufficient if the average of the current year and the preceding year is at least 95%, or if the average of the current year and the two preceding years is at least 95%. Only actual participation rates are printed. If the participation rate printed is less than 95% but 'Met AYP' is 'Yes', it means the 95% condition was met by averaging.
2. At least 47.5% Meeting/Exceeding Standards for reading and mathematics for the All and each subgroup; for subgroups under the 47.5% Meeting/Exceeding requirement, a 95% confidence interval has been applied; or meet Safe Harbor requirements.***
3. For those schools not making AYP because of the IEP subgroup only, 14% was added to the percent Meeting/Exceeding Standards for this subgroup to calculate AYP as provided by the new federal 2% flexibility.
4. At least 89.0% Attendance Rate for non-high schools or at least 67.0% Graduation Rate for high schools

* Includes only students enrolled as of 9/30/2004.

** Safe Harbor Targets of 47.5% or above are not printed.

*** Subgroups with fewer than 45 students are not reported. Safe harbor only applies to subgroups of 45 or more. In order for safe harbor to apply, a subgroup must decrease by 10% the percentage of scores that did not meet state standards from the previous year plus meet the other indicators (attendance rate for non-high schools and graduation rate for high schools) for the subgroup. Safe harbor allows schools an alternate method to meet subgroup minimum targets on achievement.

PLANNED IMPROVEMENT FOR THE SCHOOL AND DISTRICT

This is the final section of the school report card in which your school and district provide information below on areas of success and areas for planned improvement based on your school's improvement plan.

(For report cards disseminated electronically, this information may be provided in a separate document due to differences in the software used. If you are unable to locate this document, please contact your local school or district office.)

Stephen Mack Middle School Aiming for Excellence!

Stephen Mack Middle School is an academically challenging middle school with high teacher and student expectations. Our curriculum is continually evolving and improving, as is evidenced by our ISAT results.

2005 is the third year that we have been able to compare the ISAT results on all our 7th and 8th graders back to their testing experiences in 4th and 5th grades, respectively. We were also for the first time also able to look at how the same 8th graders performed on the 3rd grade ISAT. We feel it is much more meaningful to track advances (or declines) of the same group of students over a period of years as opposed to comparing the results of completely different 7th and 8th grade classes from year to year. The only reason this is not a completely valid comparison is that over ten percent of the students in these respective classes have joined our district from elsewhere since 3rd, 4th and 5th grades. In general, we were pleased with the progress our 7th and 8th graders had made since 3rd, 4th and 5th grades.

For the 2002 Science test of the 4th grade, 11% of our students were below state standards, 62% met standards and 26% exceeded standards. By 7th grade for the same group of students, only 9% were below state standards in science, 62% met standards and 29% exceeded standards. It is notable that in the intervening three years, 2% of our students moved from below to meeting standards and 3% moved from meeting to exceeding standards, for a total of 91% meeting or exceeding state standards.

For the 2002 Reading test of the 5th grade, 16% of our students were below state standards in reading, 37% met standards, and 47% exceeded standards. By 8th grade for the same group of students, only 9% were below state standards, 68% met standards and 23% exceeded standards. While it is very satisfying to see 5% of the students move from below standards to meeting standards, it is troublesome that our exceeds group decreased by 24%. It is gratifying to have 91% of the class meet or exceed state standards in reading in 8th grade, the largest group ever and an increase of 7% from 5th grade. However, we were disappointed that the percentage of the group to exceed state standards decreased by 8th grade, a pattern that has been seen in previous years. This continues to be an area of focus by our School Improvement Team.

For the 2002 Math test of the 5th grade, 15% of our students were below state standards in math, 73% met state standards, and 13% exceeded state standards. By 8th grade, 17% were below state standards, 42% met standards and 42% exceeded standards. It is significant that from 5th to 8th grades, the percentage of students meeting and exceeding standards decreased by 7%, though the exceeds category alone increased by 29%! This was the largest group of students we have ever produced to exceed state standards. The school district has devoted many resources to the improvement of the math curriculum and teaching methods over the past five years. This remains a major focus of our School Improvement Team, especially the remediation of students with poor math skills.

The 7th grade Social Science test was eliminated in 2005, as was the 8th grade Writing test. These were two areas of past improvement focus that had produced stellar results among our students. The ISAT will undergo major changes for the coming school year. Reading and Math will be tested in 6th, 7th, and 8th grades for the first time in March 2006. A new writing test will return in 2007. A new contractor with a different state standards focus is producing the tests, so comparison back to previous years will no longer be valid until several years data is accumulated. Our school is participating in the norming process for some of the future tests, a compliment to our high standards.

At Stephen Mack, our ultimate goal is for 90% of our students to meet or exceed state standards in every curriculum area with an increasing percentage exceeding each year. While this is an ambitious target, it is not unobtainable. To improve our school curriculum, the school district has hired a curriculum coordinator to assist in developing a comprehensive K-8 and beyond curriculum plan. Our teachers are realigning what they teach and when. We are working closely with Hononegah High School to dovetail our curriculums, assuring the ultimate success of our students in high school and beyond. We are working to offer more challenging curriculum to talented and motivated students who do not meet the official qualifications of 'gifted'. We have a model anti-bullying curriculum to assure that peer issues are not hurting student achievement. And yet, there are still plenty of opportunities to have fun and just be a kid at Stephen Mack.

With our high expectations, we are preparing our students for high school, college, and life!
