

# Catch the Wave Swim Club

## **FREE Water Safety – Swim Assessment Or FREE Water Safety Presentation**

AMERICAN PEDIATRICS ASSOCIATION (AAP) \* now recommends “Children need to **learn to swim**, “ Dr. Weiss said. “But even advanced swimming skills cannot “drown-proof” a child of any age. Parents must also closely supervise their children around water and know how to perform CPR.”

**Month of APRIL AND MAY** we invite you to try a **free water swim assessment** or a fun and interactive **FREE “in-class room” water safety presentation”**

**Call or text today--Catch the Wave Swim Club**

**815-713-4481**
