

The Director's Cut

IMAGINE...CREATE...DEFINE...

The Director's Cut is North America's largest digital media hub and workshop for youth and is currently engaging over 105,000 children and young adolescents per year with hubs in Florida, Los Angeles, Ontario, Alberta, British Columbia, and now...Rockford, Illinois!

The Director's Cut offers a nationally recognized and approved curriculum. Their philosophy for program delivery is rooted in the foundations of Character Education and collaborative learning and engagement.

The Director's Cut crew will implement a "film studio" on location at our Rock Valley College campus. Their crew will work with campers and act as mentors through the pre-production, production, and post production stages of the filming process. Student films and content that is produced through our programming will be given to participants to take home.

The week will end with a red carpet film festival for families and friends that wish to attend.

For more details go to: rockvalleycollege.edu/Community/CCE/WhizKids/TheDirectorsCut.cfm

NEW! Lego Stop Motion

(Ages 7-10) Working with Lego, you and your crew will design your movie set, shoot, and edit your own stop motion film, including adding voice overs, sound effects, music and titles.
