Register at <https://stemforkids.net/t/wimadison/>

Questions? Contact Donna Curtis 608-352-8330 [stateline@stemforkids.net](mailto:stateline@stemforkids.net)

**Rockton Grade School**  
Kdgtn **OR** 1st and 2nd  
2:35- 4:00

## The Mystery of ME!

An Introduction to Biomedical Engineering

Discover the incredible human body and how the medical field works with engineers to make our lives better! Participants will have plenty of fun with this activity based program. Discover how joints work, build skeletons, break “bones”, design a cast, and much more.

Challenge yourself to take on STEM builds in Minecraft! Use your imagination to build, test, and evaluate solutions to real-world problems. Combine code and your building skills to discover the limitless possibilities Minecraft.edu offers!

**Whitman Post**  
3rd - 5th graders  
2:35 - 4:00

## MINECRAFT STEM LAB

**Stephen Mack**  
6th- 8th graders  
2:35- 4:00

## Website Design Lab

Discover the behind the scenes of the World Wide Web and how to keep yourself safe while enjoying all it has to offer! Share your passion as you collaborate to develop a website using on-line tools as well as some coding skills; HTML, CSS.

Engineering • Robotics • Computer Programming
