

# Whiz Kids

*Challenging minds since 1980!*

**Building on our strong academics, Rock Valley College Whiz Kids provides youth with a variety of educational enrichment opportunities.**

Rock Valley College Whiz Kids classes are designed to:

- Explore subjects while challenging students to learn new material
- Develop critical & creative thinking skills
- Introduce students to a college environment and new areas of interest
- Create an environment cleverly disguised as fun – where we “learn by doing” and support each other in the learning process
